Premium Leisure, LLC*

# A BACKYARD OF HEALTH, WELLNESS AND FUN

Swim Spas and Fitness Trainers by Premium Leisure LLC will transform your backyard into a sanctuary of wellness and family entertainment. Whether your needs are the therapeutic benefits of a "hot tub", or the training benefits of a resistive stream "swim spa", you will find the variety and features our aquatic training systems and swim spas, an exceptional value.

All of our trainers and swim spas are powered by high performance 300 GPM motors for optimum jet performance. The River Stream Jets used in the 18 foot, 16 foot dual temp and the AQ14 provides a true stream of water much like Mother Nature provides in the constant movement of a river current. The AQ11, and AQ12 utilize a split stream Turbo Jet System designed to provide a more robust and turbulent stream of water... Novice to Professional, each spa is designed to provide great training and great therapeutic benefits that can be enjoyed by all.

## AQX16

If a traditional pool is out of your budget or if you simply don't have space for one, perhaps owning a swim spa by Premium Leisure is in your future. Available in various sizes, these self-contained systems are easy to install and are an excellent alternative to owning and maintaining a swimming pool. Better yet, they come with a variety of features and benefits such as hydrotherapy seating, LED lighting, sound systems and maintenance friendly sanitation systems, all designed to maximize your ownership experience. It's your space and your time, you should enjoy it to the fullest.

# Your World

*AQX11*

Shown as AQX11 in Sterling Silver Marble

The AQX11 is ideal for aquatic exercise while also providing the benefits of a World Class hydrotherapy hot tub. With the AQX11, you can rejuvenate your muscles in our exclusive Reflexology Seat, luxuriate in the roomy and comfortable lounge, or stand and exercise in one of the two vertical therapy positions. It is conveniently sized and heavily featured to make it an extraordinary ownership investment.

## Specs
